GOODBYE, DINING TABLE. HELLO, NEW WFH HUB.

While some of us have returned to the office, the majority have been working from home for weeks, for months, for almost a year now. Even though our dining tables and kitchen islands are awesome, they're certainly not ideal productivity centers.

If you're wanting you had a better spot for remote working, Office Depot can help. Plus, you'll enjoy extra savings through your Express program.

Check out these three simple steps to upgrade your WFH space.

1. CHOOSE A DESK

A desk is the centerpiece of your work-from-home hub. Whether you have a lot of space or a little, Office Depot has stylish and durable options you'll love for years.

2. PICK A SEAT

Look for a chair that provides comfortable cushioning, lower back support, and adjustable height. Some plans fit on wheels or have wheels!

3. PERSONALIZE!

Make your space yours with polished and functional accessories. It's the last essential step in creating an inspiring and functional home office.
